## Message from Pastor Chris

2009. I know, I know, I got the date wrong, we just started 2023. But 2009 is not a year that stands out in many people's minds as anything spectacular, however, I believe people studying the history of our time will recognize the year 2009 with the significance it holds. 2009 was the first year that social media became available on cell phones. Social media—Facebook, Instagram, Twitter, etc.—is so ubiquitous today that it seems innocuous. However, researchers are already looking at data that has significantly shifted since 2009, and it's quite staggering. For example, self-harm among teenage girls and suicide rates among teenagers in general have exploded since 2009. I don't think we fully understand the impact that social media has had on our society, but as time goes on and researchers continue looking, we'll see that 2009 will be one of the most substantially influential years on our world.

Social media and the advent of cellphones came on and have evolved so quickly that our society hasn't really had a chance to step back and reflect on their impact. That research is just now starting to come out and there's something we should all know about it. **The primary function of social media is to keep the user looking at it for as long as possible.** Early on, the creators of social media utilized the expertise of sociologists and psychologists to understand what would keep people engaged as long as possible and they found the best tool to do this was to intentionally put content in front of users that made them either afraid or angry of the people and world around them. It can't be overstated that this is one of the primary reasons our world has become more divisive and polarized.

Even if you aren't a user of social media, most people around you are, and social media is so ubiquitous that it is shaping society in macro ways rather than individual. All of us are exposed to its effects and how we view the world. I share all this not to create despair, but one, to highlight one of the reasons we've been experiencing this polarization all the time. To understand why something is happening is the first step in changing it. The second reason I share this is that it's the New Year—a time when we "start fresh" and we're Christians, which means we're called to look at the world through the lens of Jesus, which frankly, stands in contrast to the lens given to us by social media. I mentioned in one of my recent sermons that Jesus didn't physically change the world, he simply called his followers to look at the same world with New Eyes—eyes that viewed our self-worth through God and viewed our perspective of our world through that same lens. This perspective shift had such a powerful effect that it eventually did change the world.

By and large, I believe the combination of cellphones and social media have had a negative impact on our world, primarily because it's given people an overall negative view of the world and its people. **Jesus calls us to do the opposite.** It's New Year. A time where we start fresh, where we change our perspective, and our faith has been offering us that new perspective for 2,000 years, and today, we need it now more than ever. I invite all of us to consider our view of the world and the people around us and consider a more positive outlook. Let us see each other, not primarily through the labels the world gives us, but as beloved children of God. And let us look to the future, not with fear or anger, but with hope and promise that God will continue to redeem and restore our world and invite us to participate. I pray that we can enter this New Year with a new perspective, and I believe that perspective will have the power to change life around us for good.

**In Christ's Love,**

**Pastor Chris**

### **Bethania's Angels Break the Record!**

Thank you to all of our Christmas Angels who helped with the gifts for our 95 Iglesia children and the 2 Preschool/After School children. A record breaking 97 recipients had a joyful Christmas thanks to the generosity of our Angels. This was our largest Christmas Angel event yet, with all of these children to shop for, and I am so proud to say that Bethania members and friends once again stepped up to this challenge. The number of children who enrolled in the Angel Gift program was over 700, so we did a great job helping make Christmas more fun by sharing our love.

The members of Iglesia Luterana are primarily of indigenous Oaxacan descent; most do not speak English but may be able to get by with some Spanish, as their primary language is a native dialect. The pastor communicates in Spanish and those who speak only the indigenous dialect(s) have the Spanish translated to their language by others. They attend a start-up church located on the premises of Bethel Lutheran Church in Santa Maria. The parents of these children struggle during the off-season months to have enough food for their families and other necessities. Christmas presents are non-existent for the majority of these children.

We worked with Pastor Esteban and his wife Angie to try to fill the children's "wish lists". We were "Christmas Angels" to children of both genders, ranging in age from under 1 year old to age 16. The presents were wrapped and delivered to the church before their distribution on Wrap Day, Dec. 18. The joy of the children and the gratitude of their parents is overwhelming, as the only gift that most of them will get was from our "angels".

We also supported some local families whose children attend our own Bethania Preschool and After School Program with gifts. These families are our neighbors who are struggling with their financial challenges. The children were chosen by Director Lola Gonzalez for assistance this Christmas season. We are very happy to be able to help some children who are attending our wonderful program based here at Bethania.

Thank you all for your generous hearts and loving help with this project through your “adoption”, shopping, donations and Thrivent card use! An extra special thank you to the gift delivery team of Gene Madsen and Don De Meyer. Gene arranged to borrow the Valley Hardware delivery vehicle so that almost all of the gifts made it up to Santa Maria in one trip. Special Angels Lois and Don DeMeyer, Gene and Harriet Madsen, Donna Hinsbeeck, Denise Morris and Elizabeth Breen who helped out so much with this effort.

A heartfelt thank you to all the angels in our congregation and community who contributed in ways large and small to make this happen in 2022.

## **Noisy Sunday: Making Change Count in 2023**

**The next “Noisy Sunday” is coming on Jan. 22nd.** Noisy Offering donations received that day will be used to help our friends at Iglesia Luterana Santa Cruz.

***What will our donations be used towards?***

**Our January Noisy Sunday offerings will be used to help provide food pantry items for the members at Iglesia Luterana Santa Cruz.** Pastor Esteban Salazar and his wife Angie told me they have urgent need of staples for their families - Beans, Rice, Sugar, Salt, and Oil. As the winter progresses, field work will diminish and many more will be hungry.

You are making a difference in a child's life with your quarters and dimes and dollars. You are helping to keep food on the table for the children of field workers who struggle to make ends meet.

If you would like to donate items as well for delivery to Iglesia families, please drop them off in the church office or the narthex of the church. Or you may contact me to arrange a pickup or drop off. Most needed items are: Flour, Maseca, Salt, Sugar, Vegetable Oil, small Pasta, dried Beans.

We all really "make change for the better" with each Noisy Sunday. So send in your coins, cash and checks into the office and make some noise on Jan. 22. Together, we can CHANGE a family's world, right here in our area. Even one donation or one coin can make a difference to someone in need.

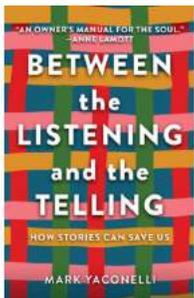

– Linda Marzullo, Social Ministry
